

Your Radiation Oncologist

Welcome to Kerrville Cancer Center.

Since 1989, we've provided Hill Country residents with a state-of-the-art cancer treatment facility backed by compassionate, comprehensive care that's close to home. Under the direction of John M. Barnett, MD, radiation oncologist, the Kerrville Cancer Center team has special interest in cancers of the breast, prostate, lung, colon and head and neck.

Leading-edge capabilities.

Here you'll find expertise in all forms of external-beam radiation and radioactive implants. Our state-of-the-art modalities include 3D radiation therapy, intensity-modulated radiation therapy (IMRT) and brachytherapy.

Complete collaboration.

Dr. Barnett works in partnership with primary-care physicians, surgeons and medical oncologists to provide the highest level of cancer care. To help you expand your range of cancer treatment options, we provide second-opinion consultations as well as consultations for combined treatments of radiation, chemotherapy and surgery. As a radiation oncologist, Dr. Barnett oversees your patients' radiation therapy treatments. He works with his highly skilled radiation therapy team to develop treatment plans for your patients and ensure treatment is correct and accurate. Dr. Barnett will also closely monitor your patients' progress and make treatment changes, as needed, to verify that treatment is being successful and side effects are minimal.

Advanced training.

You can trust that your patients are in good hands with Dr. Barnett. He received his medical degree from the University of Texas Medical Branch in Galveston. He completed his medical residency in Radiation Oncology at the University of Texas Medical Branch in Galveston and the University of Alabama in Birmingham. Board-certified by the American Board of Radiology, Dr. Barnett has helped Hill Country-area residents fight cancer for more than 15 years.

Thorough communication.

At Kerrville Cancer Center, we believe the fight against cancer is a team effort. That's why we work with all doctors to coordinate a treatment program tailored to your patients' needs. We send letters and reports to primary-care physicians, surgeons and each specialist. As a center of excellence, we pride ourselves on detail, communication and professionalism. Both you and your patients will appreciate our commitment to providing the highest level of cancer care available. For additional information, please call our office.

We welcome your inquiries and referrals: (830) 257-2070.
